B CORPORATION

Indivillage is proud and excited to be the first Information Technology (IT) & Information Technology Enabled Services (ITeS) company in India to become certified as a [B Corporation](#). We have built an amazing community of socially responsible business by providing education and economic opportunity to rural people in India.

What is a B Corp?

Certified

Corporation

B Corp are the global leaders that visions business as a force for good. They work in good interests of people and place as they actually matter. B Corporations collectively work towards high standards of social and environmental impact that benefits the society.

Why did Indivillage become a B Corp?

Being a Certified B Corporation validates to the world our mission of making progress in realising a world with equal opportunities to rural residents, women, and people otherwise left out of the modern economy. Indivillage believes it is possible to empower communities to take control and improve their lives. We live the mission of being a B Corporation every day by reinvesting our profits back into the holistic development of the entire community. Beyond just providing high-quality, well-paying jobs to people in our community, we also invest in the education of our employees, the children in our community , clean drinking water for the community and we work to reduce our environmental impact by nurturing our resources.
