

IT&ITE SERVICES (Old)

OUR SERVICES

IndiVillage is a social enterprise focused on providing education and economic opportunity to women and youth in rural India. Our IT & IT Enabled services are Data Projects, Digitization, E-Commerce, Website Design & Development, Natural Language Processing, and Machine Learning.

WEBSITE DESIGN & DEVELOPMENT

We are a front-to-back one stop shop for all your web design, web development and SEO Services. We take pride in our skills and in delivering the robust, high quality services to our customers.

SENTIMENTAL ANALYSIS

We analyze the received actionable data from social media and city hotlines where we categorize & judge the sentiment for the insights which helps the City officials to know the satisfaction & dissatisfaction of city residents in every aspect.

IMAGE EDITING & PROCESSING

Color correction to background cleaning – our team processes thousands of product and other images, editing them to create standardized photos that are upload ready and easy to share.

ONLINE CATALOG ENRICHMENT

We have years of experience converting print advertisements into digital ads and can provide customization options to target specific audiences for offers.

DATA ENTRY & VERIFICATION

From verifying employment history to processing insurance claims – we enter, verify, and manage large batches of

information with remarkable speed and accuracy.

E-COMMERCE TECHNICAL ATTRIBUTE WRITING

We help e-commerce companies enhance their quality of data by collecting technical specifications for products so customers can find all of their information on one website.

IMAGE & VIDEO ANNOTATIONS

We assist Human-in-the-Loop Machine Learning & aerial surveillance Imagery platforms transforming unstructured text, image, audio, and video data into customized high-quality training data.

DATA COLLECTION & ENHANCEMENT

We collect new data or enhance your current databases by finding social media handles on LinkedIn or Twitter profiles, locating parent and subsidiary companies of a business, or by flagging duplicate

business records.

IMAGE & DOCUMENT TAGGING

We sort and tag large batches of images or documents making them easy to search and enabling companies to quickly make new products available online.

CONTENT MODERATION

Our team ensures uploaded visual or written content is in compliance with our customers' terms of service so that only appropriate or relevant posts are seen by users.

DIGITIZATION & TRANSCRIPTION

Welcome to the paperless office. We digitize documents to make your storage fast, simple, and easy to use. We can also quickly convert audio recordings, visual files, and written documents.

E-COMMERCE PRODUCT DESCRIPTION WRITING

Enhance your website content with our product description services. We use keywords and find complimentary multi-media content to catch the attention of the end customer.

“We’ve been working with IndiVillage since they started. In that time, not only have they shown constant dedication to getting the job done well, they have grown their capabilities. We trust them to handle whatever we send their way!”

– Director of Operations, International E-Commerce Website
